

# Augmented Reality Garden Planner

Lydia doesn't know what she wants to plant and how to arrange her garden.

She puts on her AR glasses and looks at her garden.

Lydia can see her plant inventory through her glasses.

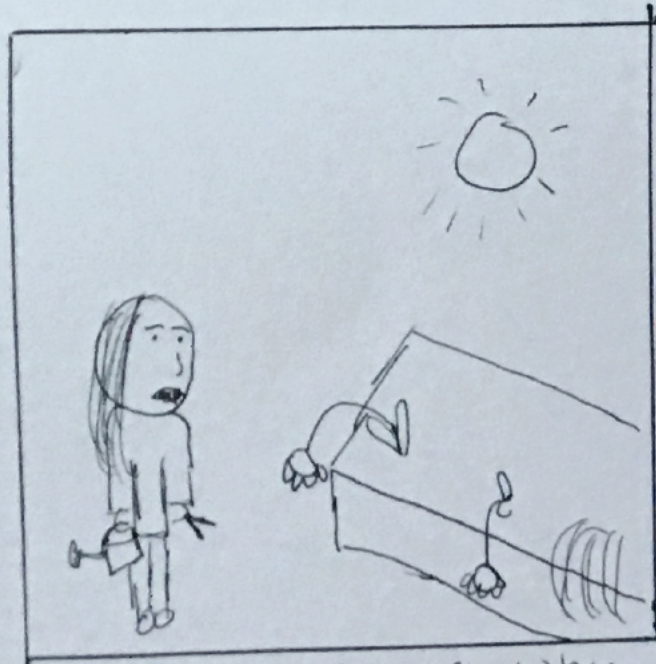

She drags and drops plants around her garden.

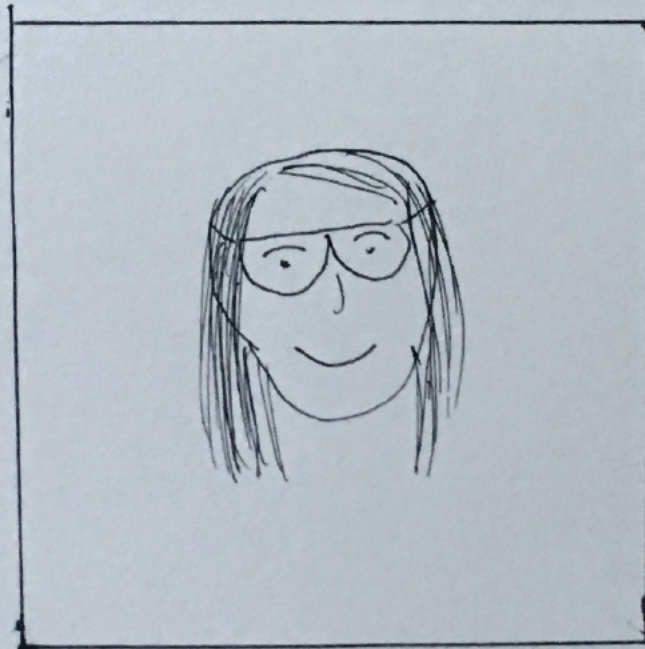

She is able to visualize her layout and is satisfied with her plan.

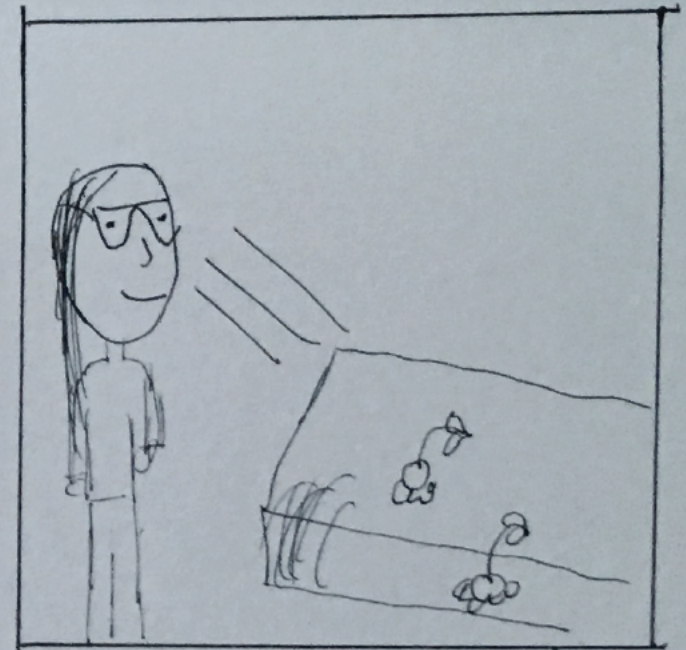

# Augmented Reality Garden Maintenance

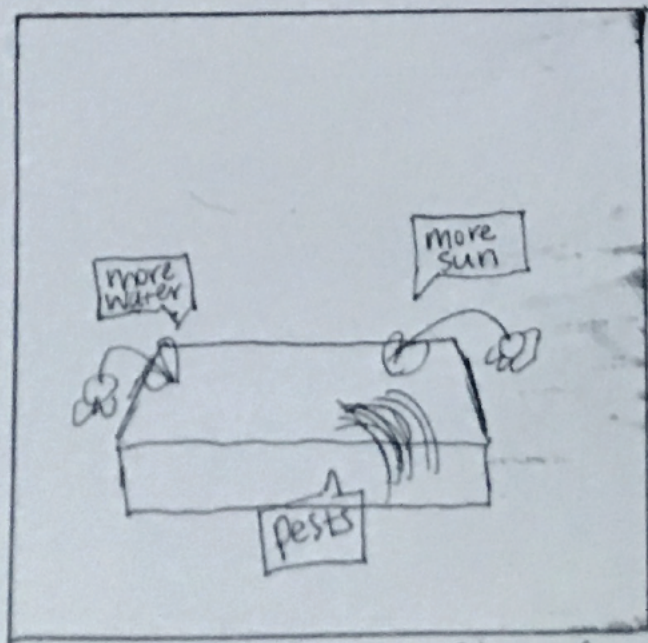

Lydia is not sure why her plants are wilting.

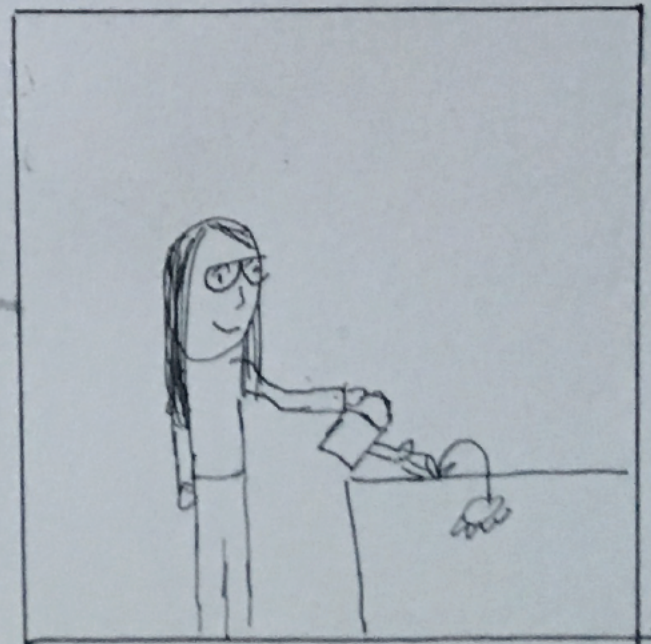

Lydia puts on her AR glasses.

Lydia looks at her garden through her AR glasses

The AR device shows what her plants need.

Lydia takes the advice from AR and helps her plants.
